Dear Campers,

I am excited to introduce the 2022 Falcon Basketball Summer Camp. As one season ends, we are already starting to look forward to the start of a new season next November.

Off-season improvement is an important aspect of our high school program. We have very high goals for next season and are already working hard towards reaching those goals. The summer camp is intended to provide these same opportunities for our youth players to improve their skills and techniques.

This year's Falcon summer camp will focus on developing offensive and defensive skills by providing instruction, drills, and competition designed for individual improvement.

Most importantly, our coaches and players have fallen in love with the game of basketball. It is an opportunity to learn a valuable lesson that comes from the result of dedication and teamwork. We hope our enthusiasm is contagious and you will leave the camp looking forward to the 2022-2023 season.

Features

Each day will provide a combination of individualized and group instruction as well as fun; competitive drills designed to challenge and improve each athlete's skills.
